

It is difficult to understand what some women want because they can not begin to articulate their needs and desires themselves. Feminism has directed them toward independence and having careers and lovers, but their inborn instincts, inherent passions, purposes and visions continue to tug at them to stay pure and then get married and have children.

A few years ago an American woman living in London England wrote: *“I am 39, twice divorced, childless and could not understand why it is so difficult to find Mr. Right; I now know exactly why. My lady friends [who] are very unhappy and complain that most men they meet (and we are talking about men over the age of 30, not 15) just want sex and refuse to commit to any kind of meaningful relationship.*

As a result of my loneliness and eagerness to procreate I have become spiritual. I thank God that someone had the guts to share the truth. For the past five years I kept asking myself why my life had turned out as unfulfilling as it did whereas my mother didn't have that problem (she was born in 1929).”

The above is typical of millions of men and women who do not have families because of a covert campaign of satanically stimulated psychological warfare waged against the heterosexual society.

This [Rockefeller-sponsored program](#) of social engineering and eugenics is waged under the guise of "feminism" and "equality." The pill, sexual liberation and the mainstreaming of [homosexuality](#) are all part of it too.

The aim is to destroy the nuclear family life, degrade, depopulate and destabilize humanity by separating sex from procreation and by promoting the concept that gender roles are social and not biological.

Women have been brainwashed to usurp the male role and abandon the female. The resulting conflict and confusion leads to a breakdown of marriage and family. This produces dysfunctional people who are obsessed with sex as a primary motive in life as they look to the corporate media and political leaders for values and direction. It's an easy sell because the promoters are all part of the game.
